MOLYBDNITE ORE ON BLACK PRINCE

Splendid Sample from a Strong Vein
on Exhibition in the Window at
the Omineca Herald

On exhibition in the Omineca Herald window is a large sample of molybdenite ore from the Black Prince group, which is associated with the Rocher Debole Wonder and which was under bond to O. B. Wallace, Robt. Hadden and Bill Thompson spent several days on the claims the past week doing assessment work and also a little prospecting. The molybdenite is a new discovery and it looks like a most valuable one. The ore will be assayed this week. The ore resembles graphite and they have a strong vein which looks like developing into a big body. Through the ore runs some iron, which is not considered a detriment. Molybdenite is in great demand at the present time and if it can be delivered in quantities brings a big price. It is used in the manufacture of steel and especially for war materials. The boys will do more work on this vein in the hopes of opening up a body of ore. From the same group of claims they brought down a very high grade sample of copper-gold ore. This is also on exhibition in the Omineca Herald ore window.

NEW TIME TABLE IS NOW IN EFFECT

Increased Traffic Made Another Train
Each Way Necessary—A Little
Change Made in Time

In future the passenger trains on the Grand Trunk Pacific will arrive in New Hazelton on Mondays, Thursdays and Saturdays from Prince Rupert at 6.23 in the evening. From the east they will arrive here on Mondays, Wednesdays and Fridays at 10.31 a.m. These trains will run right through from Prince Rupert to Winnipeg. The equipment is all modern, with electric-lighted sleepers and diners. A tourist car will be operated once a week, leaving the coast on Mondays and Winnipeg on Tuesdays.

Have Their Candidate

Jos. Merryfield, Prince Rupert, well known in this district, has been chosen as the Conservative candidate for the Skeena riding in the Dominion house.

First Wild Strawberry

Geo. Hodgins reported on Friday last that he had gathered the first wild strawberry. He transplanted some of the vines into his garden last fall and they give promise of furnishing him with a fair crop this year.

FRENCH MAKE IMPORTANT ADVANCE; RUSSIANS ONCE MORE START OFFENSE

Muscovites Relieving German Pressure in Galicia by Attacking Von Hindenburg's Army Before Warsaw—British Airmen Raid Gallipoli, Doing Damage to Turkish Base—Allies in West on General Offensive

Paris, June 9—Official—In the region of Notre Dame De Lorette there was reported a very spirited engagement yesterday. Our infantry has everywhere consolidated the positions previously gained and has also made new advances. At Neuville St. Vaast we have carried the entire group of houses in western part of the village; also additional houses on the principal street north of this group. In the Labyrinth our troops repulsed a violent counter attack and slightly increased their progress. South of Hebuterna we have maintained the gains of yesterday and last night notwithstanding a strong attack delivered by two German battalions which were brought up in automobiles from the north and to the east of Arras. Following this we continued our progress to the east on a front of about 1200 metres. The enemy violently bombarded the trenches that we took from him yesterday to the north of the Aisne near Moulin Sous Toutuvent. This bombardment with which our artillery vehemently responded was not followed by a counter attack.

Petrograd, June 9—Violent fighting between the Germans and Russians is developing in Poland north of Ostrolenka, and the Germans are struggling to renew their offensive. Farther to the south in the region of

Przasnysz a great artillery duel has developed. The official reports indicate that the Russians have begun to press hard against Von Hindenburg's German forces in Poland to off-set the Austro-German pressure in Galicia. Five thousand Austro-Germans were killed and 700 were taken prisoners in a bloody engagement in south east Galicia, announced the war office today. These severe losses were suffered by the enemy on one sector alone. Along other sectors in the battlefield in southeast Galicia the Austro-Germans also lost very heavily in killed.

Athens, June 9—Krupps have established near Constantinople an immense factory for the manufacture of shells and explosives. They are employing four thousand German workmen.

Washington, June 9—Wilson's reply to the German note is expected to leave today.

Van Ghell Goldemersterson, religious advisor to Queen Wilhelmina, arrived today in the interest of neutral mediation. He had previously visited Berlin.

London, June 9—The entire western line, except portions held by the Belgians and British, was the scene of a series of offensive movements initiated by the French who made steady ad-

vances and captured a portion of Labyrinth. At Hebuterne they took 650 prisoners, at Soissons they took 250 more with 6 guns. The Germans lost thousands in killed in their unsuccessful counter attacks.

London, June 9—An epidemic of typhoid fever has broken out in Constantinople among the troops and civilians. Seventy-five physicians have succumbed. The waterworks, it is feared, will have to stop owing to a shortage of coal. The German families that are able are leaving.

London, June 9—A successful British air raid on Gallipoli peninsula is reported by the Daily Telegraph's Bucharest, Roumania correspondent. Nine seaplanes participated in this air raid dropping bombs on Akbasch, the Turkish base in the harbor of Gallipoli. Three soldiers were killed and a dozen wounded while the stores and storehouses were badly damaged.

Amsterdam, June 9—The Telegraaf's Sas Van Gent, Holland, correspondent says that heavy damage was done at Ghent by a British air raid. The Telegraaf also learns that the closing of the Dutch frontier has caused the movement of enormous transports which are all going to the Ypres line.

WALTER SMITH KILLED AT YPRES

Former New Hazelton Boy Had Just
Returned from Hospital When
Received Mortal Wound

It was learned with great regret that Walter McB. Smith, son of V. W. and Mrs. Smith, had been mortally wounded in the fighting around Ypres. In the fighting on Hill 60 Walter was wounded but soon recovered and returned to the trenches. The second time he was reported as wounded one day with his skull fractured and the next day the report was received that he had succumbed. Walter was one of the youngest soldiers from the province, being chosen from the Boy Scouts of Vancouver, and was one of the fifteen sent forward last September as reinforcements. He was well known here and all along the line of the G.T.P. from Prince Rupert to Burns Lake. The sympathy of the district is extended to the parents.

FRANK ROWELL IS TRANSFERRED

Popular Conductor on the Grand Trunk
Pacific Between Smithers and
Rupert Gets New Run

On Sunday morning Conductor Frank Rowell made his final trip on this run, for some time at least. He has been transferred to a run out of Edmonton. Frank has been on the passenger train since it was first put on east of Prince Rupert, and since the line has been completed his run has been between Prince Rupert and Smithers. He is a first-class official for the company and one of the most popular men connected with the Grand Trunk Pacific on this end. His friends can be counted by the hundreds in Rupert and all along the line. In fact all who know him like him. He will be greatly missed by the travelling public and the railway company will find it hard to fill his place. Conductor Rowell has not been in good health for some time and the change is being made in the hopes that his health will be benefitted. His host of friends in Northern B. C. will wish him a speedy recovery.

An Indian's Cow Poisoned

Constable Lavery made a trip to Morricetown last week to investigate the cause of an Indian's cow being poisoned. He discovered that when the G.T.P.R. closed the station there and took the telegraph instruments out the contents of the battery bottles was thrown on the grass at the depot. The cow ate the grass and died a few hours later. At least that is the supposition.

VICTORIA CROSS IS GIVEN CANADIAN

Lieutenant Warnford is Decorated for
Exceptional Bravery—Escaped
from Behind Enemy Line

London, June 9—Lieut. Reginald Warnford, a Canadian aviator, yesterday attacked and completely wrecked a Zeppelin near Ghent. He threw 28 bombs, instantly killed the airman, while the ship exploded. He wins the Victoria Cross. He performed the greatest aerial feat yet recorded when he was forced to light within the German lines and yet make his escape. Warnford is barely 23 years of age; was born in India and came from Canada to Hendon five months ago without any experience in flying and joined the naval air service as a probationer. He revealed exceptional natural aptitude in aviation that he was soon given his chance which he made the most of.

RUSSIANS SUFFER BY DEADLY GASES

Hospitals Full of Soldiers and Civilians
Writhing in the Agony of Pain
and Blue in the Faces

Petrograd, June 9—The Germans are using poisonous gas with appalling results among the Russian troops and every living thing within a wide area has suffered. There is hardly a cow left alive. Children and women have been killed, while patients, in the Warsaw hospitals are blue in the faces from the agonizing pains. They are gasping for breath and frothing at the lips, and very many will die as a result of the gas.

Developing Properties

There are four if not five copper prospects being developed on this side of the Rocher Debole mountain and all of them are within one to three hours walk of the centre of the town.

CUT OFF AT MONS SOLDIERS RETURN

After Hiding in Belgium Nine Months
British Soldiers Return and Tell
of Their Experiences

London, June 9—Six British soldiers have turned up after being in hiding in Belgium for the past nine months suffering great hardships. Last August they got cut off at Mons. They said:—"If any of us had been caught we would have died fighting for after what we had seen we had made up our minds never to surrender."

Jolly Farewell Dance

It was a very jolly farewell dance tendered E. B. Tatchell and D. G. Allen last Friday night. The hall was very pretty in decorations of maple leaves and wild flowers. A number from Hazelton attended. Miss Sharpe furnished the music and everything passed off successfully.

In a recent issue of the Omineca Miner (the McBride-Bowser organ) the editor devoted nearly two columns to a news item that appeared in the Herald a few weeks ago. The item referred to was a portion of a speech by Mr. Weart, of Vancouver, who advocated that the mining industry in British Columbia be encouraged and that the prospectors be assisted.

The Miner states that Mr. Weart is ignorant and that the Omineca Herald is ignorant also because it reported the speech.

An editor who occupies the position in life that the editor of the Miner does is, or should be, well qualified to cry "ignorant" at those who endeavor to accomplish something. Why should not a man dub others ignorant when he himself has utterly failed as a prospector, a miner, a land staker, a land pre-emptor, a political heeler and lastly failed as an editor and publisher of a small-town paper? The audacity of such a person to force his gibberish upon an intelligent, but long suffering public.

The Enderby Press, in a recent issue, remarked as follows:—

"When the Creator had made all the good things there was still some dirty work to do, so he made the beasts and reptiles and poisonous insects, and when He had finished He had some scraps that were too bad to put into the rattle snake, the scorpion and the skunk, so he put all these together, covered it with suspicion, wrapped it with jealousy, marked it with a yellow streak and called it a KNOCKER.

"This product was so fearful to contemplate that He had to make something to counteract it. He took a sunbeam and put it in the heart of a child, the brain of a man, wrapped these in civic pride, covered it with brotherly love, gave it a mask of velvet, a grip of steel, and called it a BOOSTER; made him a lover of fields and flowers and of manly sports, a believer in equality and justice, and ever since where these were, mortal man has had the privilege of choosing his own associates."

Lord Northcliffe, owner of a number of Britains most reliable and influential papers, is credited with securing the appointment of Lord Kitchener to the post of Secretary for War. Later Lord Northcliffe found that Lord Kitchener had a job that was too big for any one man. The war from Britain's standpoint was not progressing as was expected. The

newspaper lord undertook to inform the public and criticised the secretary for war, with the result that the British cabinet was shaken up and Lord Kitchener was relieved of part of his duties. Lord Northcliffe has since been abused by a large portion of the British press which saw a possible opportunity of securing some of the circulation and popularity of the Northcliffe papers. There does not appear to be occasion

for Canadian papers butting into the discussion as they have nothing to gain, and the British press and people are capable of handling their own affairs. We in Canada want results for the men and money being sacrificed, and if one man cannot handle the whole war two should be appointed or even a thousand, but for goodness sake let us get results, and get them now, not several years hence.

ALLIES SPRAY THE TRENCHES OF TEUTONS WITH FLAMING LIQUID

Paris, June 9—Official—On the Arras sector very violent fighting continues and we are following up our progress. There has been an artillery engagement throughout the entire day without interruption. It was of a violent nature in the Font De Duval at Ablain, also at Souche, at Neuville and at Eucre.

At Vauquois by way of reprisal we sprayed flaming liquid on the trenches of the enemy who replied with a bombardment.

An attack by us southeast of Hubert was completely checked.

We carried by assault two of the enemy's lines on the Tetuvant farm taking 400 wounded as prisoners, of whom seven were officers, captured some machine guns. Several hundred dead Germans were found on the field. A single German counter attack was delivered but this was immediately checked.

North of the Aisne the enemy has made desperate efforts to recapture the two lines of trenches we took from him yesterday. He brought up reinforcements

in automobiles from a distance of 50 miles. He made a desperate counter attack, but of no avail. Two thousand German dead were left on the ground. We made 250 prisoners including an artillery officer and 28 non-commissioned officers. We took six machine guns and others were discovered under the ruins. We have destroyed by Melinite the three 77 pieces which fell into our hands yesterday. They were down behind the second German trench which we occupied. It was not possible to bring them into our lines on account of the fire.

Between Spissons and Rheims we have cut down several local attacks and drove the enemy back about a hundred yards in the woods to the south of Ville-Aubois.

Amsterdam, June 9—A squadron of allies aeroplanes have raided a German supply base at Valcienes, doing much damage with bombs.

RUSSIA BLOCKS GERMANY'S RUSH MUSCOVITE LINES HOLDING HARD

Petrograd, June 9—Official—Fighting continued in the Shavli region on June 5 and 6 without essential change in the general situation. Artillery duels still prevailed at Ossowetz on the 5th.

Between Ikwa and Rosogwa rivers the enemy made an ineffectual attempt to assume the offensive. There was artillery fire in the Orzic valley and the region of Przansys on the 6th. In the direction of Mosciska

the enemy made violent attacks on the left bank of the Wisznia and on the front of Csizki Pakost and Ostrozog. On hill No. 295 there was a prolonged hand to hand engagement. On the Dneister the enemy has now renewed his offensive in the direction of Nikolajeff, but unsuccessfully attacked our bridge heads near Zidacsow. In the region of Zurawna the enemy succeeded on the night of the 6th in crossing

SYNOPSIS OF COAL MINING REGULATIONS.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N. B. — Unauthorized publication of this advertisement will not be paid for Oct. 4 6m

Thorpe, Aldermere; Dr. Wallace, Telkwa, or by mail from the Medical Supt. at the Hospital.

The Optimism of Advertising

A word that is frequently misused is "optimism." A man engaged in any business whatsoever who looks for success without exercising his faculties to achieve that end, is not an optimist, but a fool

Two things make advertising almost a synonym for optimism. One is that the advertiser who would be successful must be an optimist. The other is that when an advertiser loses his optimism he generally cancels his advertising.

"Business is rotten," exclaims the manufacturer, and forthwith orders all his advertising stopped, little realizing that his own action is one of the principal causes that makes business rotten.

Cancelling advertising is so easy that it is nearly always the first step toward retrenchment. The matter is seldom decided on its merits. It is impulse. Advertising must be an expense, the advertiser reasons. Therefore to cut it off effects a saving.

The stoppage of advertising in times of stress and change has two bad effects upon the business involved. It turns off immediately a method of securing new business and holding old business. In addition to that, it advertises the pessimistic views of the advertiser, and therefore spreads his own lack of

faith in himself, his country, his goods, and the future to other business men who are perhaps on the verge of doing the same thing.

Without in any way minimizing the crisis which the world is now facing, without ignoring the fact that a long, expensive war in Europe will result in a great deterioration of values and a tremendous adjustment of finance and commerce when it is over, there is nevertheless sufficient ground for believing that this country is going on, that the manufacture and consumption of goods will continue, and that the manufacturers who are enterprising, far-sighted and alert enough to take advantage of existing and new markets and to push their business as they would in ordinary times, are going to benefit by their actions.

The point is that the war will either end everything in the world or it will not. If it does not, business, among other things, must go on. In our own country it must go on now. It cannot wait until the war is over.

The real Optimist is the man who hopefully faces conditions as they are

OVERHEARD AROUND NEW HAZELTON

W. S. Sargent is spending a few days in the Bulkley valley on mining business.

Robert Burns and a party from Telkwa drove down last Friday and spent a couple of days in New Hazelton.

Al. Harris has returned to Vancouver from the Fond du Lac gold fields and expects to get to New Hazelton next week.

E. B. Tatchell left Sunday morning for Vancouver and Vic-

toria where he will spend a short time before settling down again.

There will be a service in the Presbyterian church next Sunday evening at the usual hour. An invitation is extended to all who wish to attend.

John Lindquist is working on his claims on this side of Rocher Deboile mountain. He has confidence in his property on account of surface showings.

The Clothier boys are making good progress on the Silver Cup and they are working in very fine ore. They have over a carload of ore sacked and this week a train of about twenty pack horses will start to bring the ore to the

depot. Geo. Clothier will be in town the latter part of the week.

V. W. Smith and M. Sheedy passed down on Wednesday morning for Prince Rupert to spend a week. Mr. Smith said he would return to New Hazelton next week.

Geo. Tallman has been working on a new lead on his Rocher Deboile property and has got into some high grade copper ore. He reports a five foot vein with encouraging surface showings. George has gone back to proceed with his work.

Geo. Stewart has struck a new bunch of ore on the Silver Bell and there is a lot of enthusiasm in his camp. Steve McNeil came down from Nine Mile mountain on Monday and brought a sample to the Herald office where it is on exhibition. This is some of the highest grade ore that was ever taken off Nine Mile mountain.

Although there will be three trains a week on the G.T.P. there will continue to be only two mails each way per week. The mail from the west will arrive here now in the evenings of Thursday and Saturday, and from the east it will arrive on Mondays and Fridays. If the people want it any oftener they will have to make application to the post office department.

Buy Local Eggs Only

The Dominion Government Agricultural Department sends out warning that at this season of the year a large per centage of bad eggs reach the wholesale

houses and dealers. The government recommends candling all such eggs and a pamphlet describing the process of testing an egg can be had on application to the department. Fortunately, in New Hazelton no one is obliged to buy imported eggs. The local poultry breeders can supply the demand and the people take no chances.

BRYAN QUILTS THE WILSON CABINET

Secretary of State Objected to Militant Note in American Reply to the German Explanation

Washington, June 9—William Jennings Bryan, Secretary for State, has resigned from the cabinet as a result of the decision of that body to forward a vigorous note in reply to Germany. His resignation has been accepted by President Wilson and it is understood that Counsellor Robt. Lansing has been tendered the position. Bryan's resignation has caused a great sensation in official circles.

Secretary of the navy Daniels has announced that the Atlantic fleet will not make the trip to the Panama this summer, but is to remain in the North Atlantic.
